

Supported Living Service

Our Supported Living Service delivers support services to over 480 older people living in 15 sheltered housing schemes in Bexley. We provide high quality personal support, which enables people to have choices and live as independently as possible within the sheltered scheme and wider community.

We are delivering this service in partnership with our colleagues in Bexley Council, who commission the service, and London & Quadrant Housing Trust, who manage the housing.

We provide high quality personal support, which enables people to have choices and live as independently as possible within the sheltered scheme and wider community. We support residents to live independently by maintaining a healthy lifestyle, integrating into the community and keeping their home in a safe and habitable condition.
